23th FAD-Conference

November 4 and 5, 2026 in Dresden

Exhibitor Information

Ladies and Gentlemen,

The 23rd FAD Conference will take place in Dresden in November 2026. We are convening at a time of profound geopolitical changes that are having a massive impact on global commodity and sales markets. While CO2 reduction remains a key objective, increasing efficiency, resource independence, and cost optimization are increasingly becoming the focus of technological development.

The internal combustion engine is and will remain a cornerstone of global mobility and makes a crucial contribution to Germany's economic stability. To safeguard the competitiveness of European industry, increasingly heterogeneous markets demand consistent technological openness. The diversification of drive systems and fuels brings new demands on exhaust aftertreatment, but at the same time offers opportunities for innovative solutions based on our first-class development expertise. Taking these parameters into account, the thematic priorities for this year's FAD conference were selected.

The accompanying exhibition is a key element of our program. It offers you the ideal platform to present your company, as well as your latest products and services, to a distinguished audience of industry professionals. The exhibition opening will again take place during the get-together on the evening before the first day of the conference. The enclosed brochure contains detailed information on the various participation opportunities for companies, research institutes, and universities.

We cordially invite you to actively shape the future of drive technologies. I look forward to groundbreaking presentations, in-depth technical discussions, and an inspiring exhibition together with you.

Prof. Dr.-Ing. Gennadi Zikoridse
Conference Chair/

On behalf of the FAD Conference Organizing Team

Exhibition of the 23rd FAD-Conference

"Challenge Exhaust Aftertreatment"

November 4 and 5, 2026, in Dresden, Germany

Technical Exhibition

With the accompanying trade exhibition, we aim to give companies and institutions the opportunity to present their latest products and expertise, establish new contacts, or strengthen existing business relationships. The exhibition also provides a platform for discussions and networking among conference participants during breaks.

Venue

Bilderberg Bellevue Hotel Dresden
Große Meißner Str. 15
01097 Dresden

Time schedule

The exhibition will open on the eve of the 23rd FAD Conference, during the get-together.

Exhibition Opening:	November 3, 2026, 6:30 p.m.
Exhibition Closing:	November 5, 2026, 5:00 p.m.
Setup:	November 3, 2026, 2:00 p.m. – 6:00 p.m.

Exhibition of the 23rd FAD-Conference

"Challenge Exhaust Aftertreatment"

November 4 and 5, 2026, in Dresden, Germany

Sponsorship students

The FAD e.V. aims to enable dedicated students to participate in the 23rd FAD Conference in 2026 through sponsorship. This will give young researchers the opportunity to acquire practical expertise beyond their coursework and to network with industry representatives.

Student places will be allocated through an application process. The FAD e.V. will select participants based on the submitted application materials. Students from universities and colleges working on a thesis or dissertation on the topic of "Exhaust Aftertreatment" are encouraged to apply.

Sponsorship for each student includes a reduced registration fee of 350.00 Euro. Companies participating as student sponsors will be listed in the conference materials and program.

Conditions

Student sponsoring attendance participation 350.00 Euro per student

Interested companies note this on the exhibitor registration form. After receipt of the registration we will contact you.

General Information

Application

If you would like to use one of the above presentation opportunities at the 23rd FAD-Conference 2026, please send the registration form to the contact address provided. The application form and all relevant information are available to download online as a PDF at www.fad-diesel.de .

All prices stated on this page are plus 19% German VAT.
