17th FAD-Conference

November 6 and 7, 2019 in Dresden

Exhibitor Information

Ladies and Gentlemen,

Achieving climate protection targets and compliance with emission limits are the benchmark for assessing the success in the further development of the internal combustion engine and the implementation of the diversification of its energy base.

There is broad consensus on the requirements for future mobility concepts. On the one hand, these must be CO₂-neutral and sustainable, on the other hand, available and suitable for everyday use. As a result, a drive mix will prevail in line with mobility needs with a significantly more environmentally friendly energy base. There is still a need for discussion regarding the implementation of these requirements. FAD e.V. continues to champion technology-friendly development and fair competition.

Taking into account the above points, the thematic orientation of this year's conference program will take place. Expectations on future drive technologies as well as the associated requirements for exhaust gas aftertreatment and exhaust gas measurement technology, contributions on comparisons of drive technologies with regard to the well-to-wheel and the status of developments in the field of sustainable fuels for diesel and gasoline engines. There will also be presentations on technologies for reducing air pollution in major cities.

In this brochure you will find all the information about the presentation options during the 17th FAD Conference. The conference accompanying exhibition is a great opportunity to present your products and the competencies of your company. Furthermore, we offer the supplement of information material and the announcement in the conference proceedings.

We hope that the presentation topics and presentation possibilities will arouse your interest. We would be delighted if we could welcome you as an exhibitor and / or participant of the 17th FAD Conference in November 2019 in Dresden.

Prof. Dr.-Ing. Gennadi Zikoridse
Executive Director of FAD e.V.

Exhibition of the 17th FAD-Conference

"Challenge- Exhaust Aftertreatment "

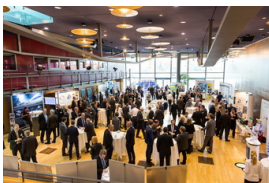

November 6 and 7, 2019, in Dresden, Germany

Technical Exhibition

The accompanying exhibition offers the perfect opportunity for discussions and talks with conference delegates, for gaining new industry contacts or intensifying existing business relationships. We offer possibilities of indoor and outdoor exhibition.

Venue

Internationales Congress
Center Dresden
Ostra-Ufer 2
01067 Dresden Germany
Phone: +49 351 8321 0

Schedule

The duration of the exhibition reflects the conference schedule.

Opening of the exhibition:	November 6, 2019, 9:00 a.m.
Closing of the exhibition:	November 7, 2019, 5:00 p.m.

The above-mentioned prices are without 19 % German VAT.

Exhibition of the 17th FAD-Conference

"Challenge- Exhaust Aftertreatment "

November 6 and 7, 2019, in Dresden, Germany

Sponsorship students

The FAD e.V. and other companies sponsored dedicative students the free participation at the FAD-Conference since 2013. Students had the opportunity first and foremost to get technical expertise in the field of exhaust aftertreatment and to make new contacts.

We want to offer this opportunity also in 2019.

All students with diploma theses or dissertation in the field of exhaust aftertreatment can apply for a sponsored participation at the FAD-Conference. The FAD e.V. selects the applicants by the submitted application documents.

The sponsorship of students includes the registration fee for students (200.00 Euro) and accommodation expenses (150.00 Euro).

Sponsor references will be published in the proceedings, on the conference-CD and in the program.

Condition

Sponsorship of students

350.00 Euro per student

The above-mentioned price is gross for net.

Interested companies note this on the exhibitor registration form. After receipt of the registration we will contact you.

Please note that this offer is limited. Registration will be dealt with in the order in which they are received.
